NEW

Intelligent Pump Controls

The nXt series represents the next step in pressurised pump controls

Designed and tested in Australia to ensure operation in the toughest of environments, combining innovative technology with robust proven architecture to guarantee constant supply of pressurised water when and where you need it the most.

Flows to 180 l/m or 360 l/m with optional 1-1/4" unions.

SINGLE MODE ELECTRONIC PUMP CONTROLLER

- Monitors both pressure and flow to control the operation of the pump automatically
- Protects the pump should the water supply fail (water tank running dry) and will automatically restart operation once water is restored
- Protects the pump from seizing through lack of use, or frequent starts where there is a water leak
- LED display that displays real time system pressure and can display indication of flow and any warnings

DUAL MODE ELECTRONIC PUMP CONTROLLER

Same features as Single Mode Electronic Pump Controller **PLUS:**

- In MODE 1 the starting pressure can be adjusted and in MODE 2 both the starting and stopping pressures can be adjusted to fine tune the installation. A pressure tank is required for MODE 2.

TRI MODE ELECTRONIC DUAL PUMP CONTROLLER

Same features as Dual Mode Electronic Pump Controller **PLUS:**

- In MODE 3 it will control two pumps in a duty/assist configuration with independent starting and stopping pressures.
- In MODE 1 and 2 it is possible to connect two pumps and they will operate as duty/standby with the same starting or starting and stopping pressures. A pressure tank is required for MODE 2 and MODE 3.

INNOVATION IN ELECTRONIC PRESSURE SYSTEMS

ENERGY EFFICIENT

- Variable speed inverter maintains **CONSTANT PRESSURE** using less energy under low flows
- The E.SYBOX is an all-in-one **HIGH EFFICIENCY** pump and control solution
- **SAVE POWER**

COMPACT DESIGN

- **SLEEK DESIGN** allows for quick and easy horizontal or vertical installation
- Easy to use **LCD DISPLAY** to customise settings and track energy savings
- **ULTRA COMPACT** - 30% space saving!

EASY MAINTENANCE

- **EASY ACCESS** to components
- Has a **PRACTICAL HOUSING** for maintenance tools and instruction manual
- **EASY TO SERVICE** internal non-return valve with special tool provided

QUIET OPERATION

- **ULTRA LOW NOISE** by water cooled motor & sound proof casing to 45dB
- **ANTIVIBRATION FEET** absorb any noise to prevent vibrations
- **WIRELESS CONNECTION** (E.sybox only) for multiple pump installs

reflex

Ensuring lower power costs and longer pump life

Thinking solutions.

All Reflex Pressure tanks are Pre-Charged with Nitrogen for longer life.

FEATURES:

- ✓ Saving power
- ✓ Extending pump life
- ✓ Reduces noise
- ✓ Low initial cost
- ✓ Manufactured in Europe
- ✓ Vertical and horizontal tanks available
- ✓ Internal coating for drinking water applications
- ✓ Sizes available: 2, 8, 18, 25, 50, 80, 100, 140, 200, 300 & 400L

APPLICATIONS:

- ✓ Booster Systems
- ✓ Borehole Systems
- ✓ Sprinklers
- ✓ Irrigation Systems
- ✓ HVAC
- ✓ Thermal Expansion
- ✓ Water hammer arresting
